Get Started

First, let's download the [ahandsel/Kintone_React_Search_Bar](https://github.com/ahandsel/Kintone_React_Search_Bar) Repo and

Once you are inside the folder, let's install the dependencies!

Run these commands
from your terminal

```
cd Downloads
```

```
git clone https://github.com/ahandsel/Kintone_React_Search_Bar
```

```
cd Kintone_React_Search_Bar
```

```
npm install
```

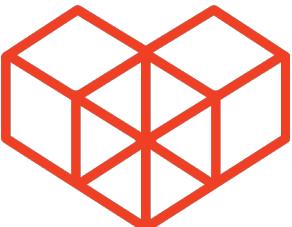

```
npm install -g @kintone/customize-uploader
```

We will use this repo as
the starting point

⚡ Notes ⚡

#1 - Sign Up for Developer Account

bit.ly/KDP_signup

⚠ Do NOT use Safari ⚠

⚡ Accept Cookies First ⚡

✓ Chrome & Firefox works ✓

The screenshot shows a web browser window with the Kintone logo at the top. The main content is a sign-up form for the "Kintone Developer Program". The form includes fields for "Your full name *", "Your email *", and a "reCAPTCHA" checkbox labeled "I'm not a robot". A large blue "Sign up" button is at the bottom.

Sign up to Kintone Developer Program

Please fill out this form, and we'll send you a welcome email so you can verify your email address and sign in.

FREE ONLINE WORKSHOP

Let's Build a Search Bar with React!

Dynamically query a
web database with it!

What We Will Make Today

A screenshot of a digital interface, likely a database or search tool. At the top left is a blue header bar with a grid icon and the text "root - 5527028". To its right are two dropdown menus with downward arrows. Further right are three icons: a funnel for filtering, a bar chart for analysis, and a magnifying glass for search. Below this header is a search bar with the placeholder "Search Manga Titles" and a magnifying glass icon on the right. The main content area contains a list of manga titles, each preceded by a bullet point.

- Records 1 - 20 of 178 >
- Search Manga Titles
- Golden Kamuy written by Satoru Noda
 - Hachiwan Diver written by Yokusaru Shibata
 - Kimetsu no Yaiba written by Koyoharu Gotouge
 - Batuque written by Toshio Sako
 - Usogui written by Toshio Sako
 - Gunnm written by Yukito Kishiro
 - One Piece written by Eiichiro Oda
 - Golgo 13 written by Takao Saito
 - Dragon Ball written by Akira Toriyama
 - Detective Conan written by Gosho Aoyama
 - Naruto written by Masashi Kishimoto
 - Doraemon written by Fujiko F. Fujio
 - Kochikame: Tokyo Beat Cops written by Osamu Akimoto
 - Demon Slayer: Kimetsu no Yaiba written by Koyoharu Gotouge
 - Crayon Shin-chan written by Yoshito Usui
 - Oishinbo written by Tetsu Kariya, Akira Hanasaki
 - Bleach written by Tite Kubo
 - Slam Dunk written by Takehiko Inoue

Quick check-in with Zoom polling

What is Kintone?

Built for teamwork,
designed by you

What is Kintone?

The screenshot displays the Kintone interface with several sections:

- Announcement:** A green header bar with the word "Sales".
- Customer Database:** Shows three cards: "Customer Database" (Admin:Green), "Sales Leads" (Admin:Green), and "Contact Log" (Admin:Green).
- Dashboard:** Contains two charts:
 - A bar chart titled "[Of] Sales Leads: Monthly Expected Sales (per priority)" showing sales for Middle, High, and Low priorities across months from April 2019 to March 2020.
 - A pie chart titled "Total(Amount)" showing the distribution of sales by creator type: Int Creator (30.1%), T/C (14.0%), Viewer (10.3%), Form Creator (4.5%), and kintone (41.5%).
- Threads:** A list of threads: "Deal Flow" (Apr 3 11:24 AM), "Sales Division" (Apr 1 11:49 PM), and "Monthly Reports" (Apr 1 11:45 PM). "Monthly Reports" is selected.
- Apps:** A list of applications: Vendor Database, Item Database, [Of] Product List, [Of] Invoices, [Of] Seminar Survey, [Of] Attendee Lists, [Of] Event Calendar, [Of] Activity Log, [Of] Sales Leads, and [Of] Customer Database.
- People:** A list of members: Hiroko ..., Mary Si..., John S..., Rudy Red, Polly Pink, Bill Blue, Glen Gr..., Paul Gray, Mark Pe..., Dannie ...

Kintone is a **no-code / low-code** cloud platform for teams to easily share and **collaborate** on their **data** efficiently.

Where Kintone is Special!

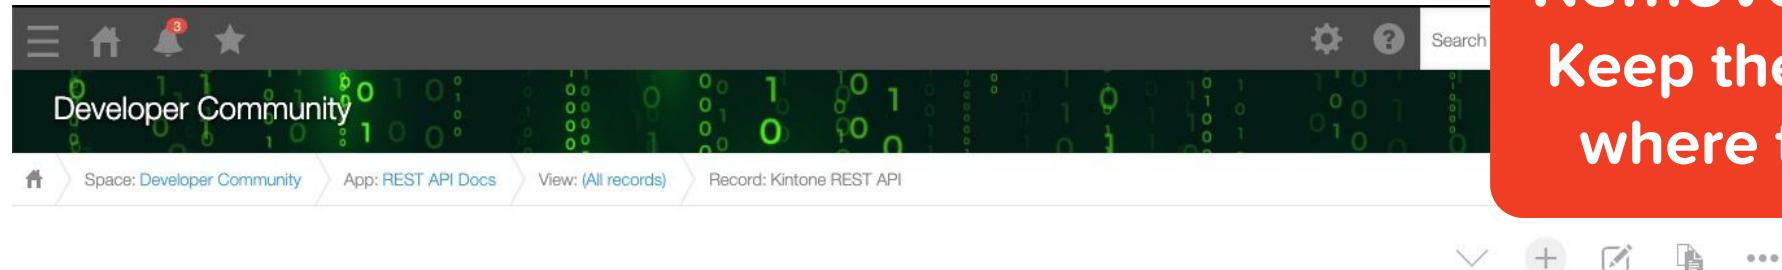

Missing - Unified Communication

Data Silos

Information is not being
shared effectively

Scattered Communication
Unclear where the
conversation is happening

What is Possible?

Where
Data
Lives

Kintone Apps

The screenshot shows the Kintone Shared To Do app interface. At the top, there's a navigation bar with icons for home, search, and settings, along with a 'Search in App' field. Below the header, a banner reads: 'To Do App with Process Management feature. All tasks assigned to you can be viewed under "Assigned to me" section on the portal page. Always be organized and on time by setting up reminders and visualizing team's progress through snazzy graphs.' The main area is a table titled 'My To Do' with the following columns: To Do, Priority, Due date, Status, Details, and Attachment. The table contains five records:

To Do	Priority	Due date	Status	Details	Attachment
Define requirements	Medium	Apr 05, 2019	In progress	Please start defining the requirements for our ne...	/x
Research vendors	Medium	Apr 08, 2019	Complete	Find at least 3 vendors and summarize their pro...	/x
Send invoice to customer	High	Apr 11, 2019	Assigned		/x
Define scope	Low	Apr 12, 2019	Assigned	XYZ Project would be a long project divided into...	/x
Map out schedule	Low	Apr 19, 2019	Assigned		/x

At the bottom of the table, it says 'Records 1 - 5 of 5'. The interface also includes a toolbar with icons for My To Do, a graph, a filter, and a list.

The main building block in Kintone is an **App**.

Imagine an **App** as a powerful, online table where data is stored in records.

Kintone Apps

Sales & Leads > Settings

Last Updated: Mary Simpson 12:10 AM

Sales & Leads

Form Views Graphs App Settings

Save Form

Leads & Sales

Lead Title Sales Representative

Contact Info

Company Name Website

Contact Name Job Title

Email Telephone Number

Product Name Product ID Unit Price Quantity

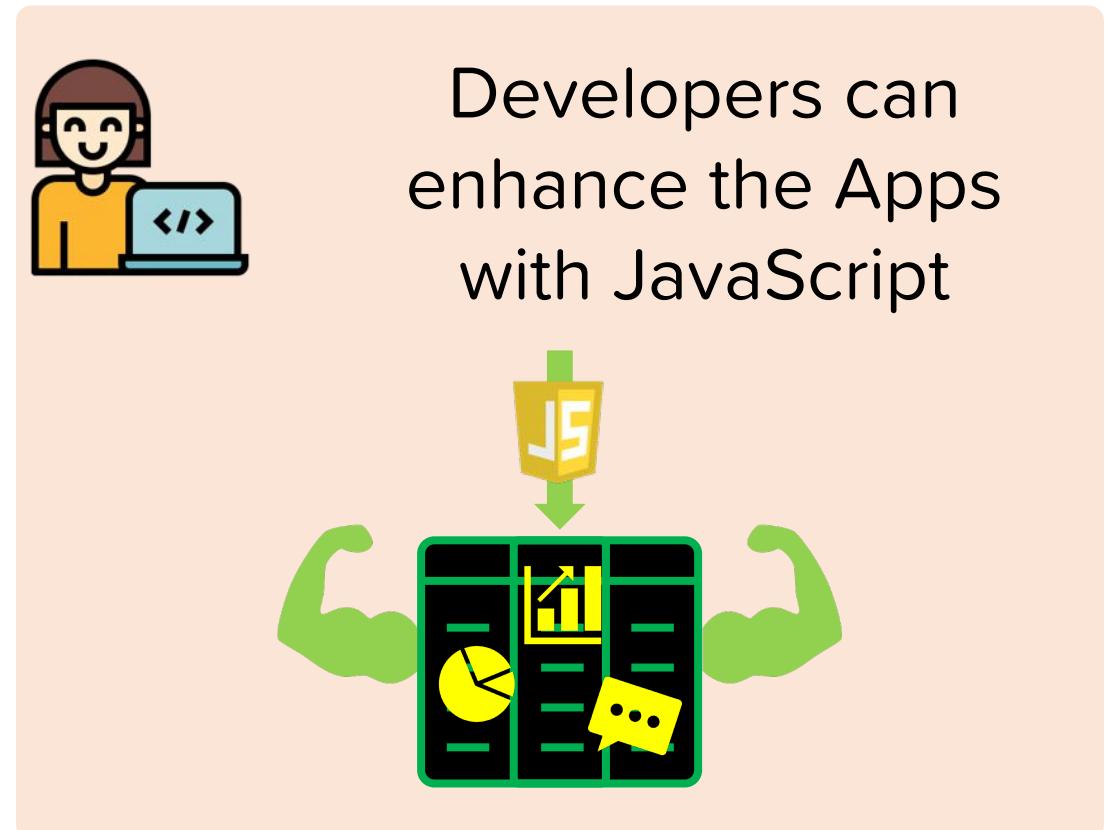

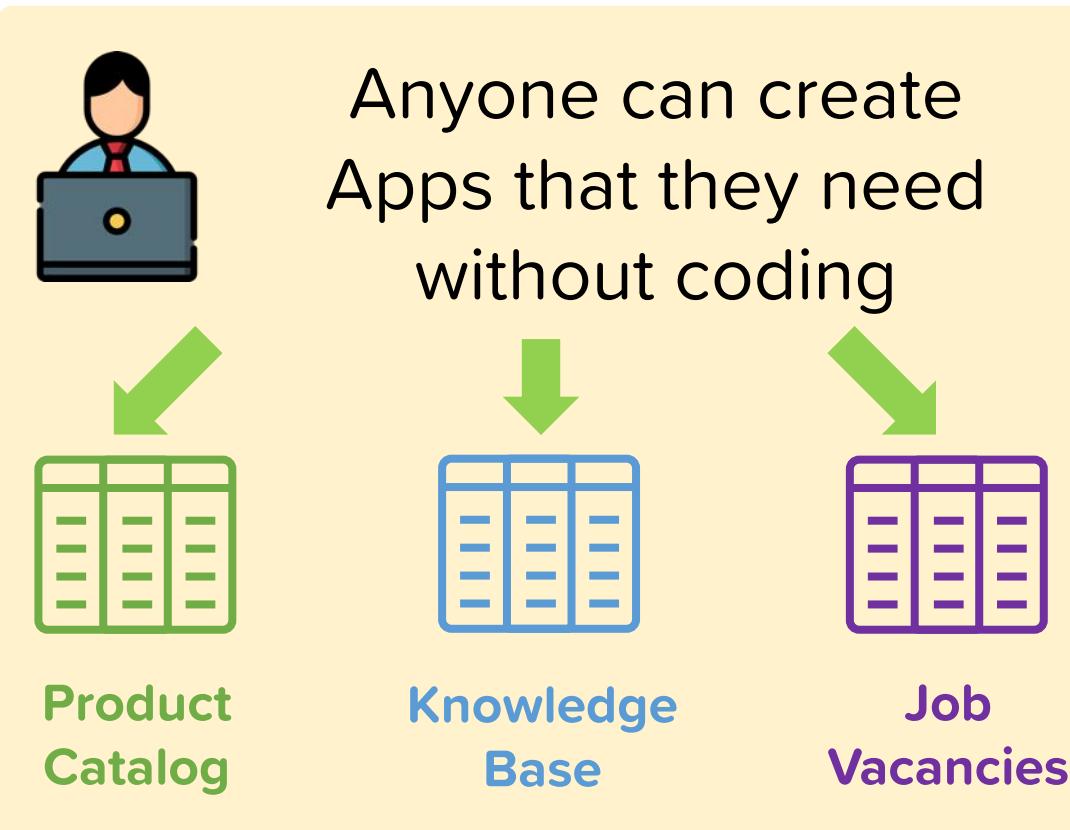

The screenshot shows the Kintone app builder interface for a 'Sales & Leads' application. At the top, there's a navigation bar with 'Sales & Leads > Settings'. Below it, a header bar shows 'Last Updated: Mary Simpson 12:10 AM' and buttons for 'Discard Changes' and 'Update App'. The main area is titled 'Leads & Sales' and contains a 'Form' tab. On the left, there's a sidebar with a 'Save Form' button and a list of field types: Label, Rich text, Number, Radio button, Multi-choice, Date, Date and time, Link, Department selection, Related records, Blank space, Field group, Record number, Created datetime, and Updated datetime. The main form area has sections for 'Lead Title' and 'Sales Representative', followed by a 'Contact Info' section with fields for Company Name, Website, Contact Name, Job Title, Email, and Telephone Number. At the bottom, there's a table with columns 'Product Name', 'Product ID', 'Unit Price', and 'Quantity'.

Apps are easy to **create** using a **drag-and-drop** interface with no coding needed.

Apps are extensively **customizable** with client-side **JavaScript**.

Everyone Contributes!

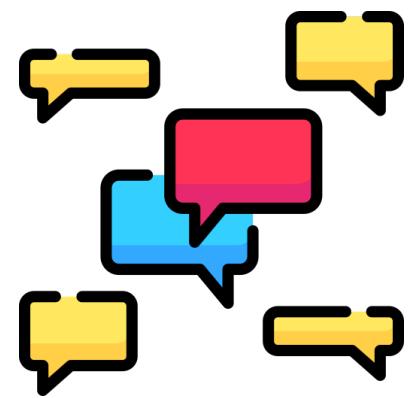

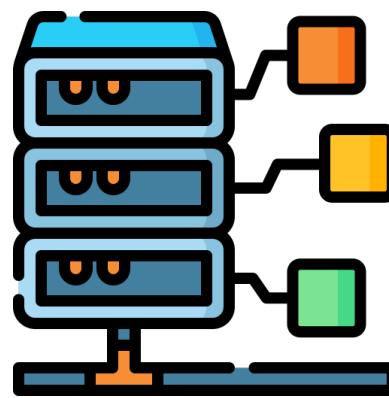

As a **no-code & low-code platform**, Kintone supports non-coders with visual programming UI while enabling sophisticated customization

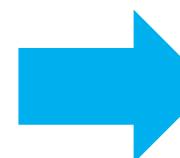

Fulfill the Promise of *Groupware*

Share meaningful insights about the data that become operationalized quickly.

Check Your Email

Welcome to Kintone! One More Step To...

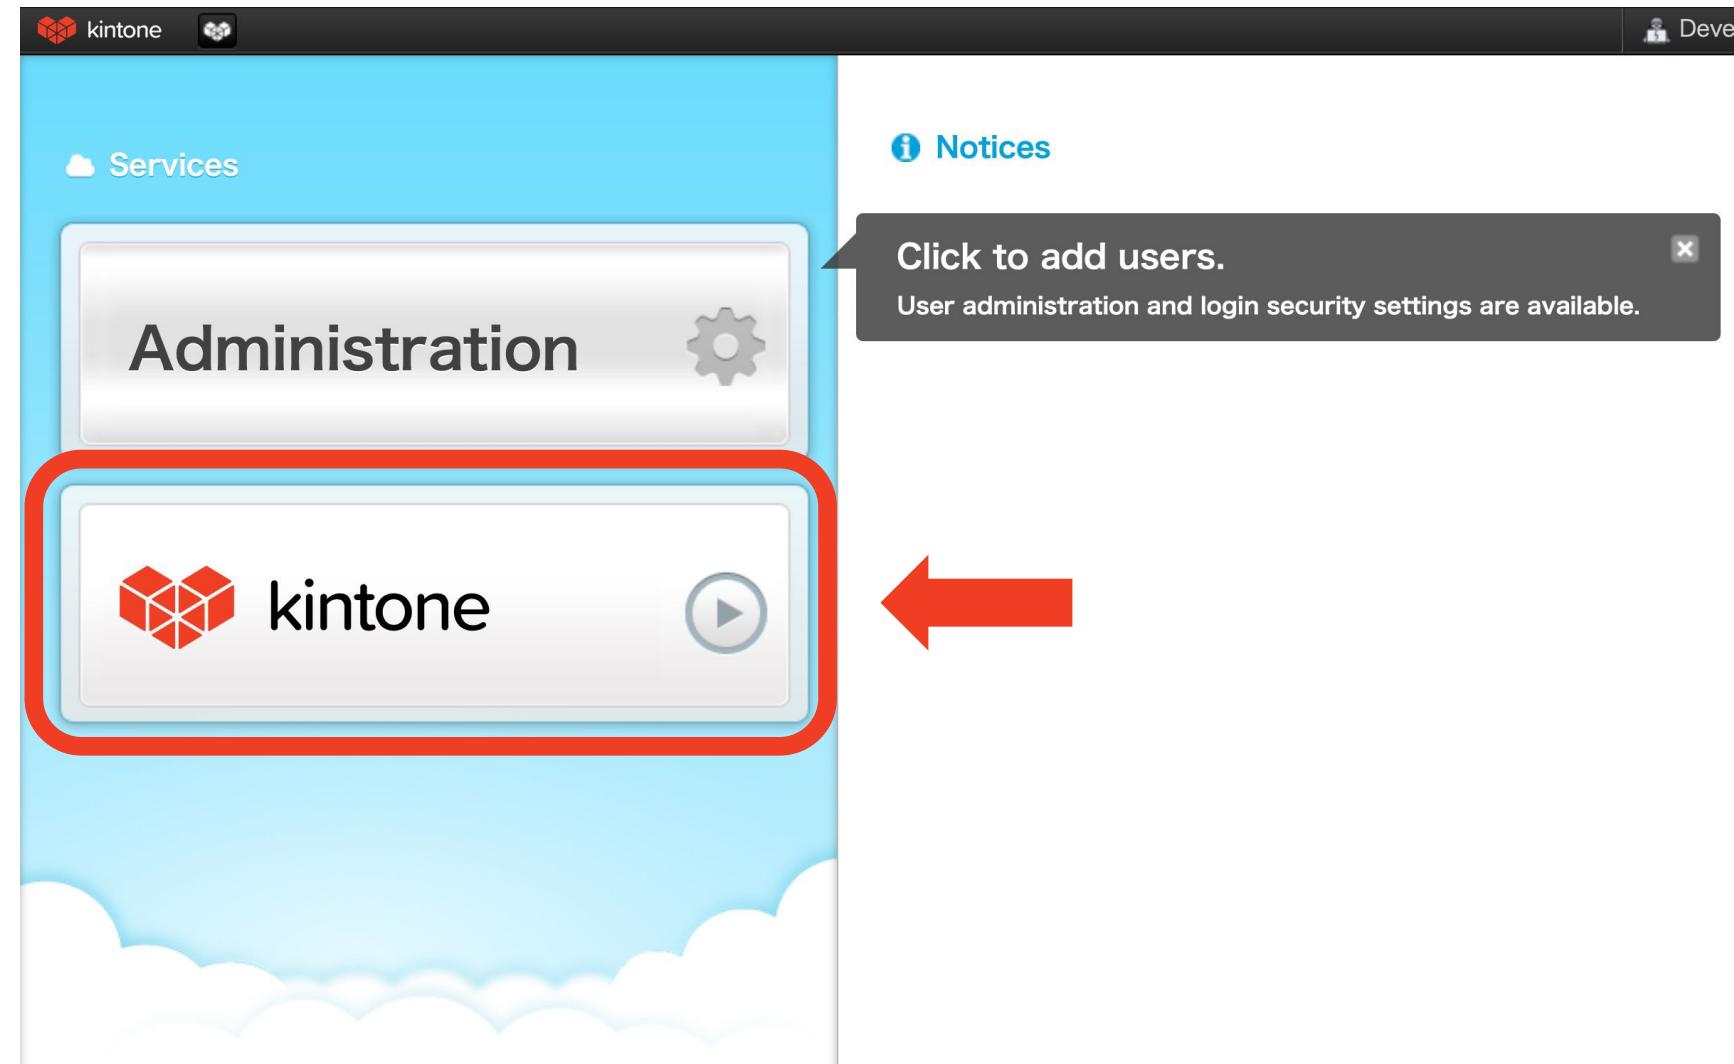

YOUR_SUBDOMAIN.kintone.com

Let's Log into Kintone

Click on Kintone button on the Left side

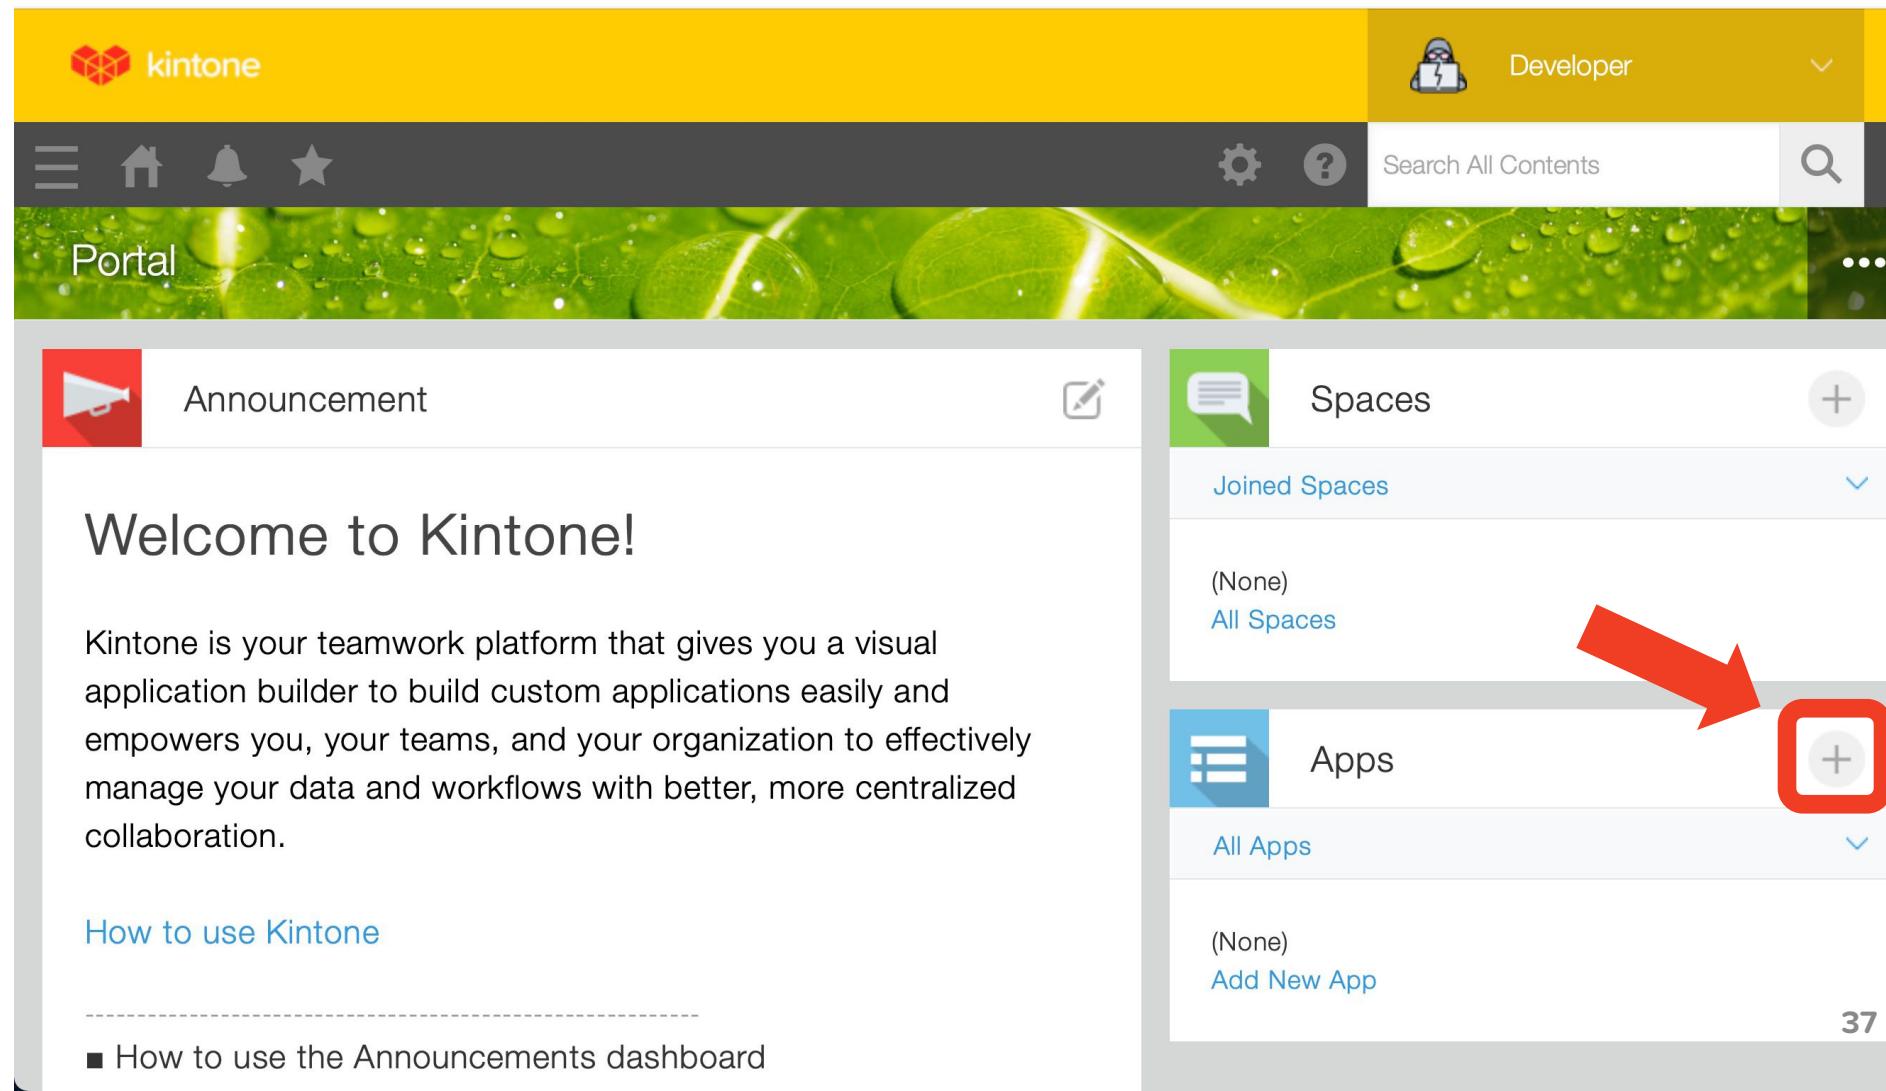

The email has the initial registration link & subdomain

Create a Kintone Database App

From the Portal screen

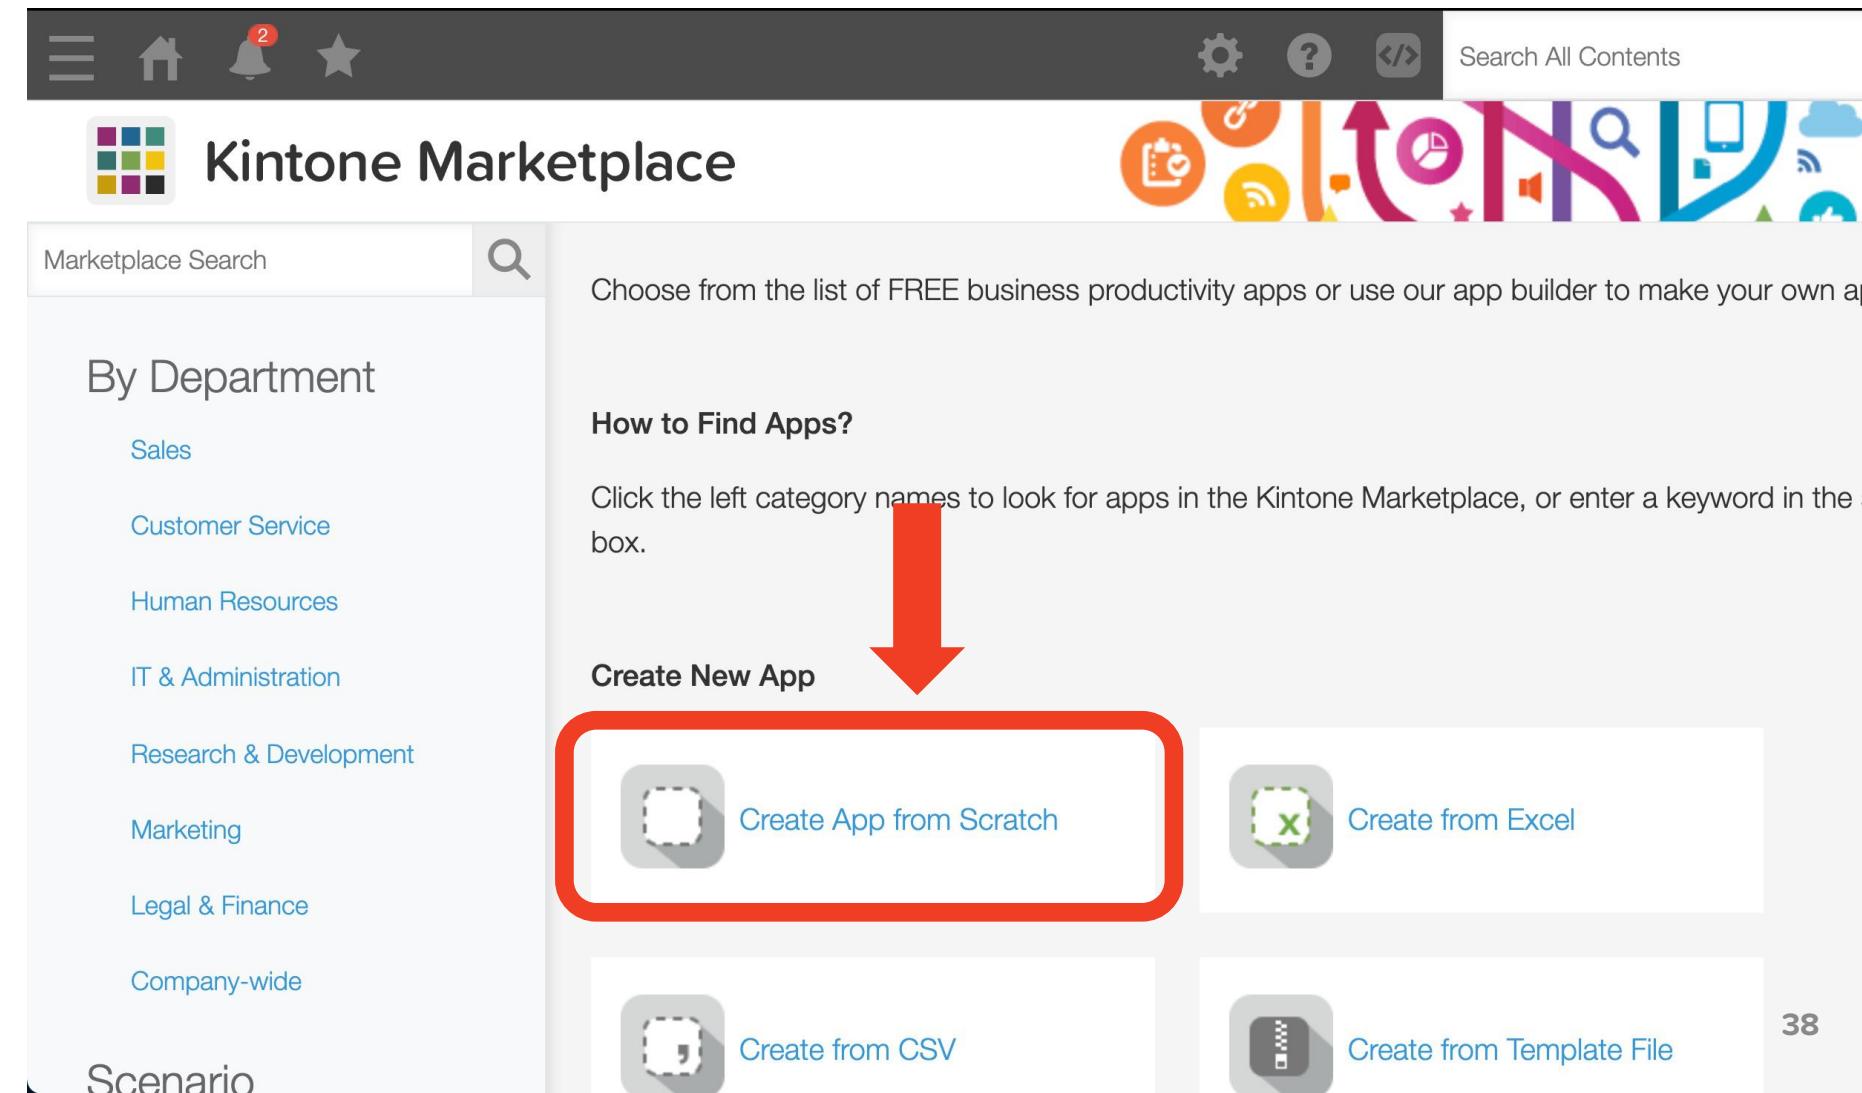

Click the **[+]** button on the Right side

Create App from Scratch

On Kintone
Marketplace...

Click on
**Create App from
Scratch**

Name the App

Replace the
"New App" with
your App's Title

We will input
"Manga DB"

The screenshot shows the kintone 'New App' creation interface. At the top, there is a yellow header bar with the kintone logo and a 'Developer' icon. Below the header is a dark navigation bar with icons for Home, Bell, and Star. On the right side of the navigation bar are settings, help, and search icons. The main title 'New App' is displayed in a blue bar above the content area. A red arrow points to the 'New App' title. Below it, a note says 'Notes for app administrators' does not exist ([Create](#))'. The interface has tabs for 'Form', 'Views' (which is selected and highlighted in grey), 'Graphs', and 'App Settings'. Under the 'Views' tab, there is a green button labeled 'Save Form'. To the right, there is a large area with a grey arrow pointing downwards and the text 'Drag and drop fields here.' Below this area is a grid of field types: Label, Text, Rich text, Text area, Number, Calculated, Radio button, Check box, Multi-choice, Drop-down, Date, Time, and Date and time. Each field type has a small icon and a delete icon.

Activate the Kintone Database App

Click on the **Activate App** button to implement the changes!

Create a Record

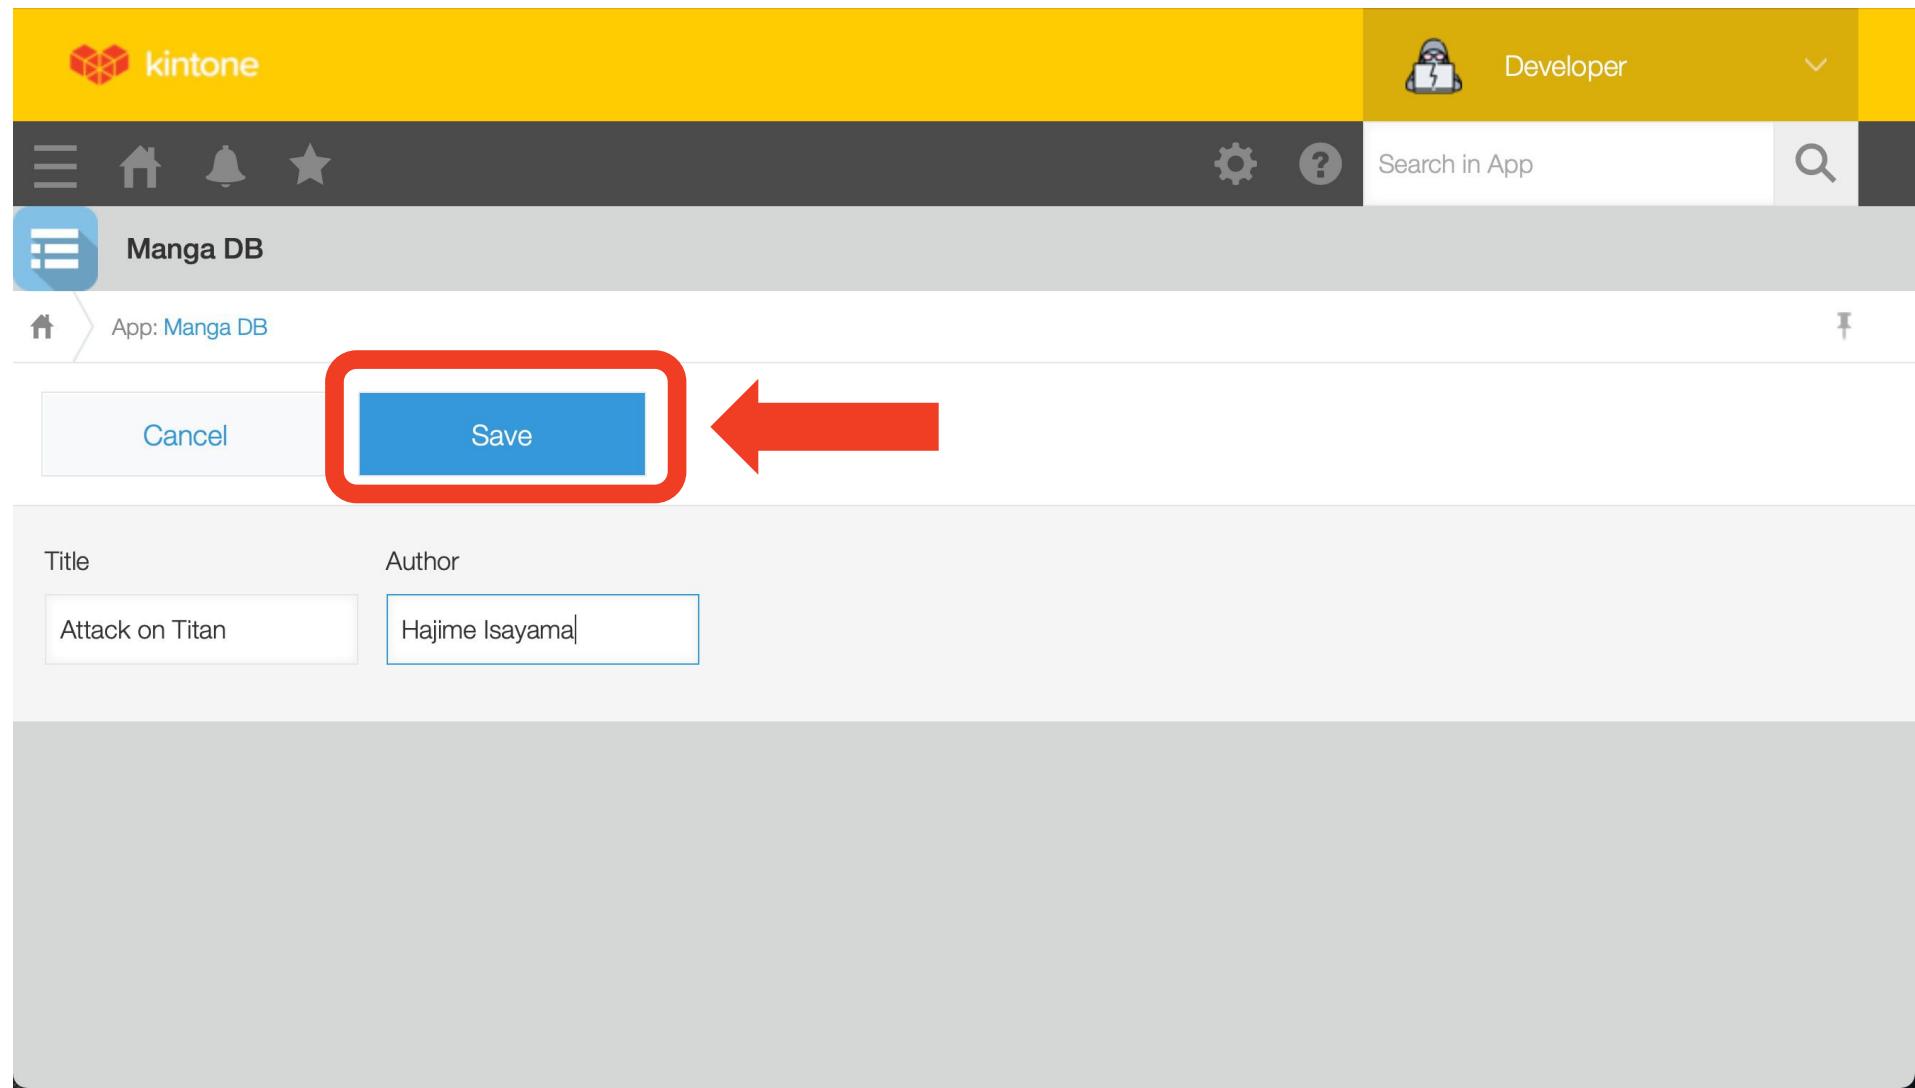

Click the
[+] button
on the
Right side to
create a record

Save a Record

Input a Title and Author

Then click the **Save button**

View a Record

You created
your first record!

Click on the
blue **Manga DB**
link to view all
the records

The screenshot shows the kintone application interface. At the top, there's a yellow header bar with the kintone logo. Below it is a dark grey navigation bar with icons for home, notifications, and favorites. A red arrow points to the blue 'Manga DB' link in the navigation bar. The main content area has a breadcrumb navigation: 'App: Manga DB > Record: Attack on Titan'. The record details are displayed in a card format: 'Title' is 'Attack on Titan' and 'Author' is 'Hajime Isayama'. On the right side, there's a comment section with a blue speech bubble icon and a message 'Write your comment here.' followed by 'No comments are available.' At the bottom right, there are several action buttons: a plus sign (+), a pencil (edit), a document (print), a gear (settings), and three dots (...).

View All Records

You can now
view
Record #1!

Create two
more records

We will use
them on our
React App!

The screenshot shows the kintone application interface. At the top, there's a yellow header bar with the kintone logo and a 'Developer' icon. Below it is a dark grey navigation bar with icons for three, home, bell, star, settings, help, and search. The main title 'Manga DB' is displayed next to a blue grid icon. A breadcrumb trail 'App: Manga DB' is visible. The main content area has a blue header bar labeled '(All records)' with a dropdown arrow, followed by filter and search icons. The table below has columns for 'Record number', 'Title', and 'Author'. One record is listed: '1' under 'Record number', 'Attack on Titan' under 'Title', and 'Hajime Isayama' under 'Author'. At the bottom right of the table, there are edit and delete icons. The status 'Records 1 - 1 of 1' is shown at the bottom.

Record number	Title	Author
1	Attack on Titan	Hajime Isayama

Going to the Custom View

After creating
few more
records

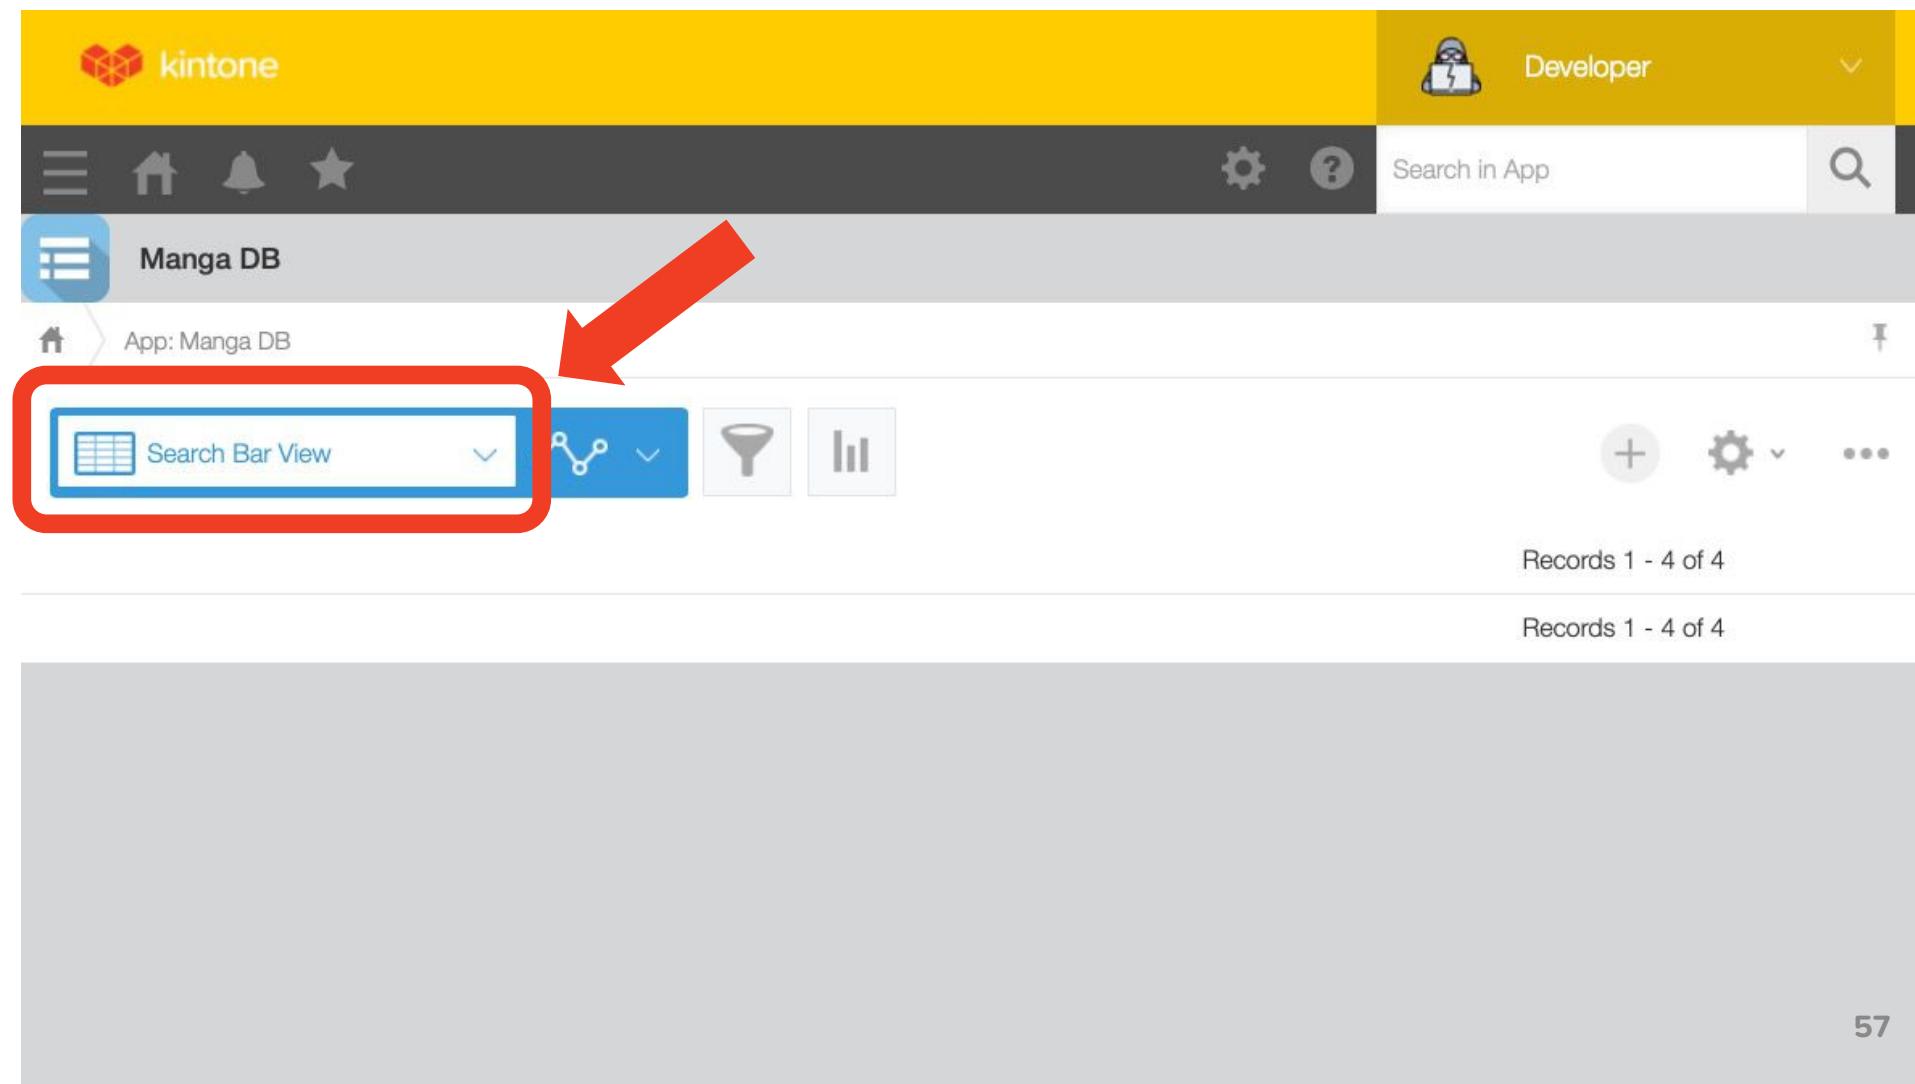

Let's go to the
Custom View:
Search Bar View

The screenshot shows the kintone application interface for a "Manga DB" app. At the top, there is a yellow header with the kintone logo and a "Developer" button. Below the header, the app title "Manga DB" is displayed. A red arrow points from the text "Let's go to the Custom View: Search Bar View" to a red box highlighting the "Search Bar View" option in the dropdown menu of the search bar. The search bar also shows "(All records)" selected. The main area displays a table of manga records with columns for Record number, Title, and Author. The table contains four records: Detective Conan by Gosho Aoyama, Dragon Ball by Akira Toriyama, One Piece by Eiichiro Oda, and Attack on Titan by Hajime Isayama. The bottom right corner of the screen shows the text "Records 1 - 4 of 4".

Record number	Title	Author	
4	Detective Conan	Gosho Aoyama	
3	Dragon Ball	Akira Toriyama	
2	One Piece	Eiichiro Oda	
1	Attack on Titan	Hajime Isayama	56

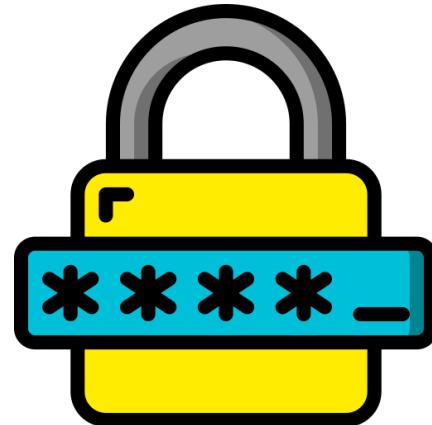

Going to the Custom View

Since we have
not completed
the
customization,
we do not see
anything... YET!

Connect Kintone to the Project

1. Input Kintone Subdomain
2. Input Kintone Login Crendeitals
3. Input View ID from Custom View setting
4. Update App ID in
customize-manifest.json

Go inside the `.env.example` file

- `.env.example` file is used to verify that `.env` file is correctly configured
- Duplicate this file & name it "`.env`"

```
KINTONE_BASE_URL=
KINTONE_USERNAME=
KINTONE_PASSWORD=
VIEW_ID=
```

Example .env file

```
KINTONE_BASE_URL="https://example.kintone.com"  
KINTONE_USERNAME="example@gmail.com"  
KINTONE_PASSWORD="ILoveKintone!"  
VIEW_ID="1234567"
```

Where to get the View ID?

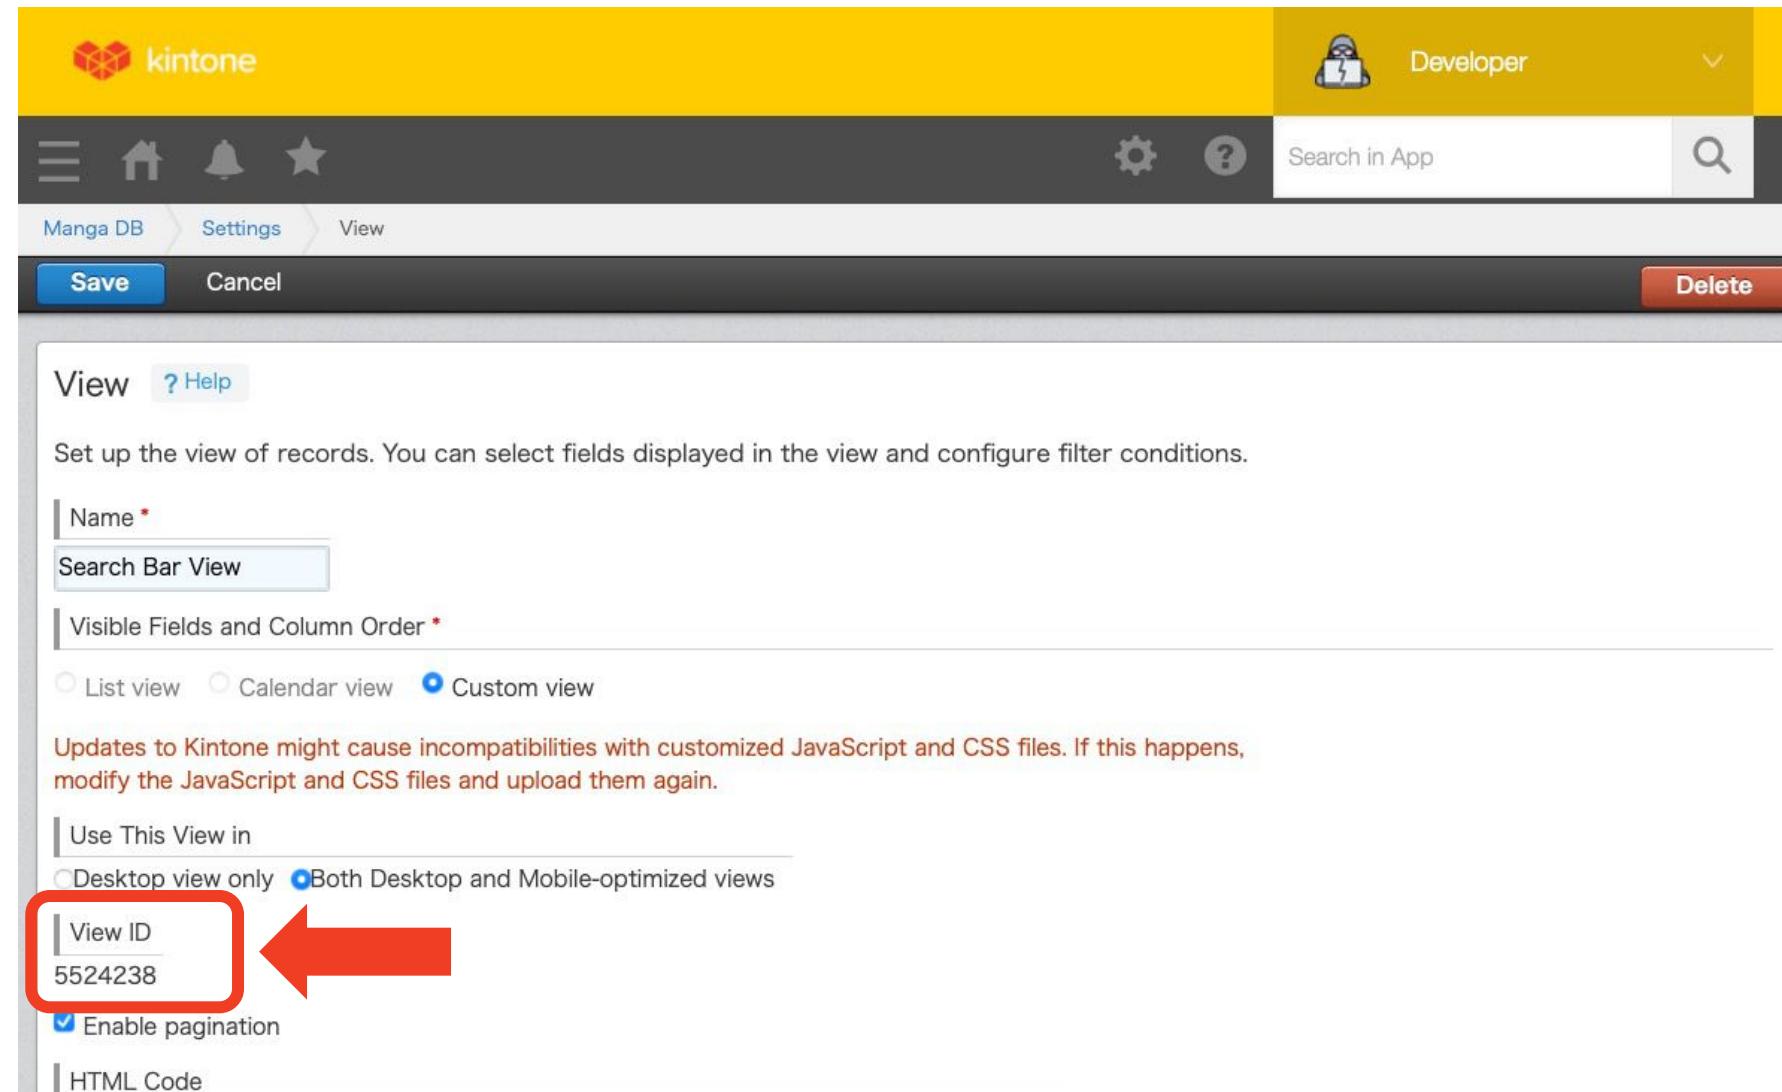

Go to the App

→ App Settings 

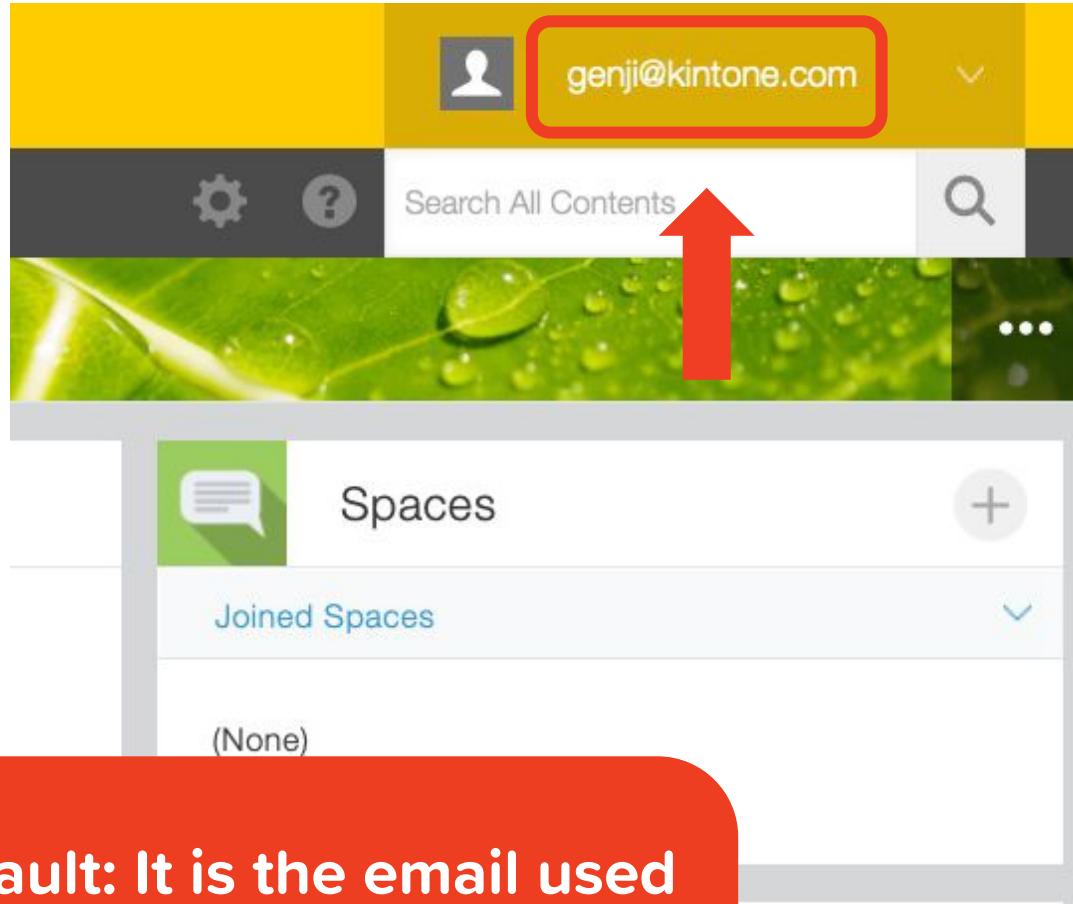

→ View Tab

→ Search Bar View

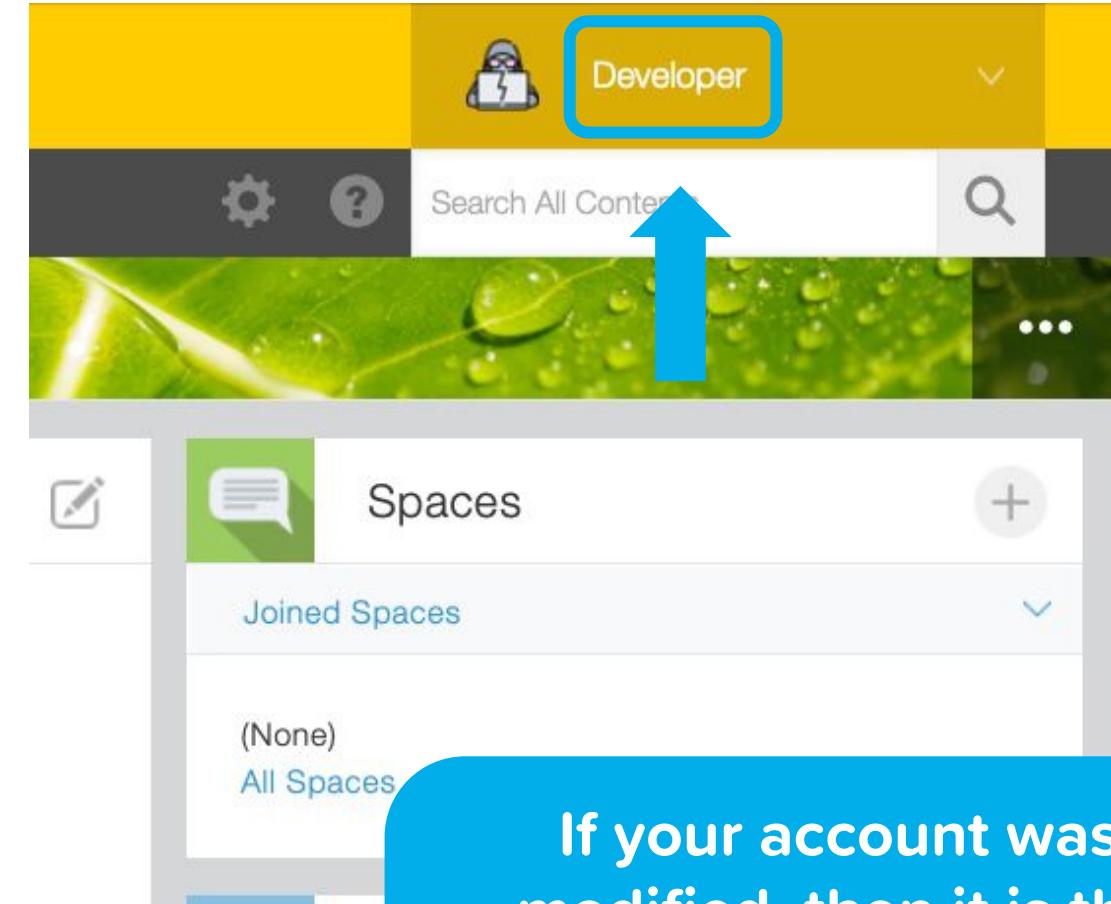

→ Get View ID

Where to get the Username ?

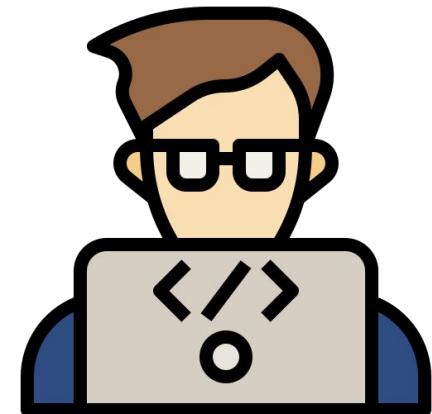

Default: It is the email used
to create the subdomain

If your account was
modified, then it is the
Display Name

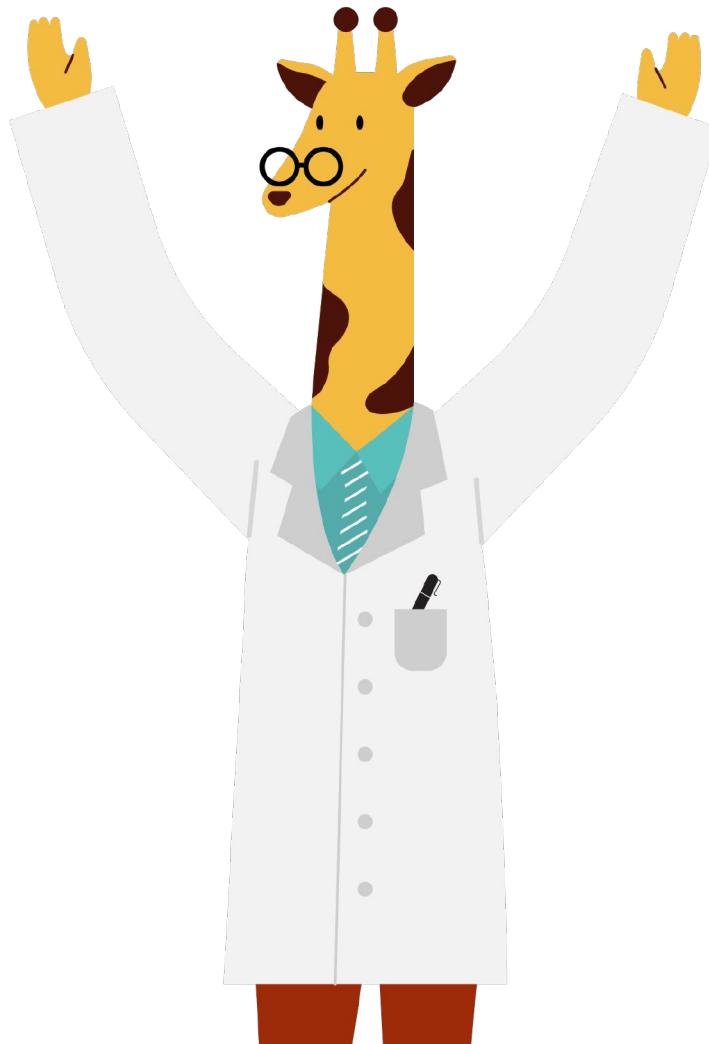

Time to Explore the Code

1. Code Overview
2. Complete the React Components
3. npm run start

\$25 Amazon
Gift Card?**

**Stay tuned till the
end & fill out our
quick survey**

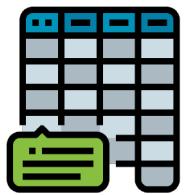

Short Break
10 min break

Back to the Live Coding!

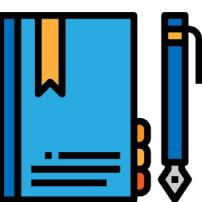

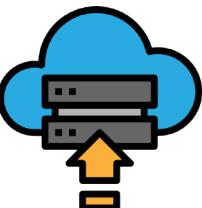

Next Steps

What are the next steps you can take?

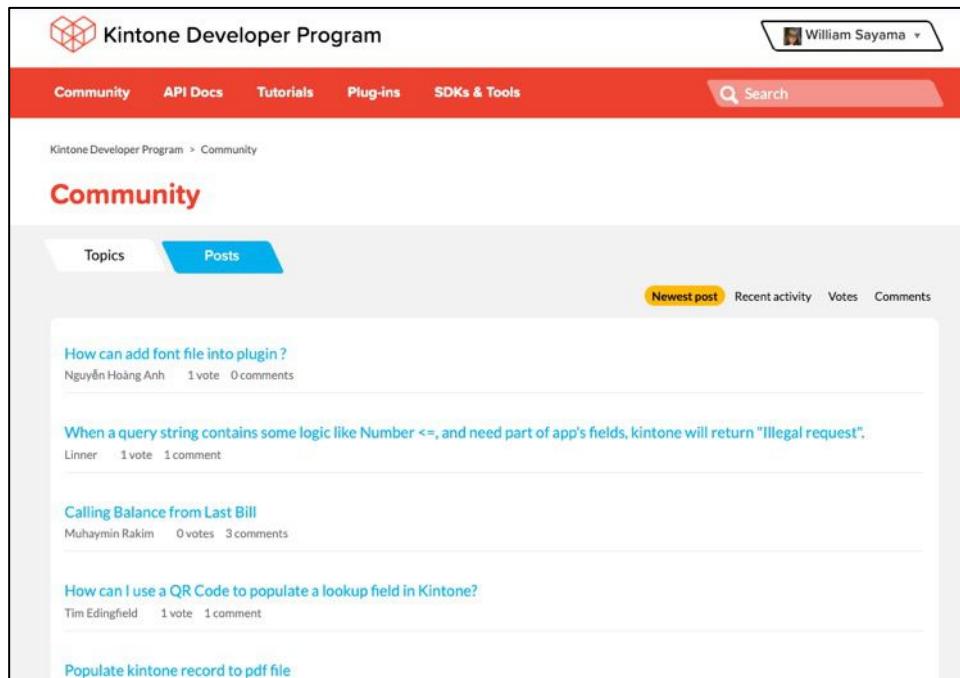

- Create a production build
- Rewrite the index.js if-else statement as a ternary statement
- Link the lists to the Kintone record or wiki page with hyperlink
- Add author and alternative title fields for searching
- Share your experience on dev.to!

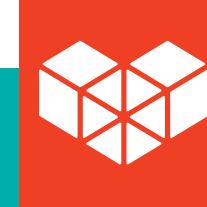

Where Can I Get Help?

If you're stuck, share your code on the Kintone Developer Community forum or on Stack Overflow!

The screenshot shows the Kintone Developer Program Community forum. The top navigation bar includes links for Community, API Docs, Tutorials, Plug-ins, and SDKs & Tools, along with a search bar and a user profile for William Sayama. The main content area is titled "Community" and shows a list of posts. The first post is titled "How can add font file into plugin?", made by Nguyễn Hoàng Anh, with 1 vote and 0 comments. The second post is titled "When a query string contains some logic like Number <=, and need part of app's fields, kintone will return "Illegal request".", made by Liner, with 1 vote and 1 comment. The third post is titled "Calling Balance from Last Bill", made by Muhammin Rakim, with 0 votes and 3 comments. The fourth post is titled "How can I use a QR Code to populate a lookup field in Kintone?", made by Tim Edingfield, with 1 vote and 1 comment. The fifth post is titled "Populate kintone record to pdf file.", made by an anonymous user, with 0 votes and 0 comments.
